

Results from feedback on this course show improved personal commitment and motivation to do the right thing, enhancing safer operational performance.

The sessions will be interactive; dilemmas will be discussed and analysed by the group.

At the end of the course, recommendations and guidelines (a mission statement) to control and manage risks for shareholders and stakeholders will be written by the delegates under supervision of the trainer.

ACT's dedicated personal OWN additional policy towards safety

Cooperatively made after a successful HSE safety training in August 2015

SAFETY RULES ARE YOUR BEST TOOLS

WORK WISELY, Safety first, **TEAMWORK**, Take care, Loyalty, **Share Knowledge**, Awareness, Kindness, **no fear**. Tank Terminal Training

The above are the employees' suggestions to work safer, better and happier. The idea is to create such personalized Bill Boards and posters for your company and place them at the entrance or in other locations.

Why You Should Attend

This 2-day highly interactive and practical course will help and teach businesses and individual staff to develop a sense of vulnerability and its consequential responsibility to one self and to others, the environment and society as a whole. It teaches that everyone possesses a free will and has the ability to choose what is best.

Learning Objectives

Master operational best practices in value awareness. Prevent health and safety risks and protect the environment. Become aware of social responsibility and sustainability of the organization, one's business or one's personal career. Develop a Total Safety Culture and learn how to maintain it.

Who Should Attend?

- Everyone who is interested in improving HSE standards
- Terminal operators and management
- Terminal Contractors
- Share and Stake Holders
- HSE supervisors
- Port authorities
- Environmental Protection Agencies (Government and NGO)

Our Behaviour Based Safety and Human Factors Program focuses on the following:

1. Safer work environment
2. Frequency and severity of injuries decreases
3. Safe behaviours increase
4. At Risk behaviours decrease
5. Staff participation in Total Safety Culture increases
6. Reporting of near misses increases
7. Acceptance of responsibility and accountability for safety increases
8. How to build and maintain a self-regulating, learning and adaptive safety culture

Course Instructor: Arend van Campen, Tank Terminal Training

Arend van Campen is a committee member of the Dutch Branch of the Energy Institute. Arend has worked for over 35 years as a CEO, Terminal Manager, Marine Cargo Expediter and Loss Prevention Advisor around the globe including Amsterdam, Rotterdam and Antwerp for a number of clients such as Shell, BP, Exxon, Pertamina, Q8 Petroleum, Gulf Nederland, Vopak, Cargill, Amfert, Mobil and Petroplus. TTT has been officially recognized by the Energy Institute as an approved learning provider. Arend holds a Master's degree in Business Ethics & Social Responsibility and teaches that a safe, sustainable and profitable business can thrive only when people choose and act ethically. He set up 'CREAZENE', an institute researching sustainable methods to ensure human well-being and the preservation of the environment.
